

Eastern Europe Rail NDT Open Day

November 7th, 2017 | Lucchini Poland - Minsk Mazowiecki

Lucchini RS Group and GE Inspection Technologies cordially invites you to the 2017 Rail Open Day for Service and Non-Destructive Testing (NDT). This event focuses on rail applications including the inspection of wheels, axles, wheelsets, bogies.

Expect discussions about

- NDT in service inspection
- NDT in the maintenance workshop
- NDT in the production area

We will cover ultrasonic, eddy current and remote visual inspection methods in demonstrations done by Baker Hughes GE and Lucchini RS Group specialists as major players in the rail industry.

Agenda

- | | |
|-------------------|---|
| • Nov 7th 9:00AM | Welcome by GE and Lucchini Poland technical presentations |
| • Nov 7th 11:00AM | Lucchini Poland workshop visit and technical practical NDT sessions |
| • Nov 7th 1:00PM | Lunch break |
| • Nov 7th 2:30PM | NDT technical sessions continue |
| • Nov 7th 5:00PM | Wrap up and end of NDT workshop |

In the interactive workshop session you may take advantage on visiting Lucchini Poland facilities in Minsk Mazowiecki, having a hands on workshop on hollow and solid axles inspection, wheels inspection, and application cases. You will be able to meet and discuss with experts from applications, engineering and service.

Please register until Oct 27, 2017 at: huerth.ge@ge.com. If you have any questions, your local contact person will be happy to help. The number of participants is limited.

We are looking forward to meeting you!
